

IN THE CLAIMS:

Please cancel claims 1, 2 and 4 without prejudice or disclaimer of the subject matter thereof.

The following is a complete listing of claims in this application.

Claims 1-2 (canceled).

3. (currently amended) The device according to claim ~~1~~ 7 wherein the dye has a complementary color to the chromaticity of the light emitted from the LED for a desired color of light.

Claims 4-6 (canceled).

7. (new) A chromaticity-corrected LED device comprising:
an LED mounted on a substrate;

transparent resin sealing the LED, the transparent resin including phosphor particles distributed therein for changing a chromaticity of light emitted from the LED to a desired chromaticity, based upon an expected chromaticity of the light emitted from the LED; and

an outer surface of the transparent sealing resin comprising a dye specifically selected to correct the chromaticity of the light emitted from the LED based upon a measurement of chromaticity of the light emitted from the LED.

8. (new) The device according to claim 7, wherein the LED device is for producing white light.

9. (new) The device according to claim 8, wherein the LED emits bluish white light, yellowish white light, reddish white light or greenish white light.

10. (new) The device according to claim 9, wherein the dye is a color which is complementary to the color of the LED.
